

2006 Statewide Historic Preservation
Honor Award Presented to:

Marc Bagala
Bagala Window Works
for Preservation
Craftsmanship

Bagala Window Works has been restoring windows and doors in many of Maine's most notable historic properties and private older homes since 1988. A partial list of his projects includes the Henry Wadsworth Longfellow House, Blaine House, Old Augusta City Hall, Berwick Academy and First Parish Congregational Church in Yarmouth.

Marc and his team understand and appreciate old windows and doors and believe that maintaining the historic and aesthetic character of historic properties includes retaining and restoring them.

They have consulted with homeowners, contractors, architects and preservation professionals for years and are great advocates of keeping original windows in place, operating smoothly, efficiently and gracefully.
